

 **elica**  
aria nuova

**PRODUCT GUIDE**

AIR IS PRECIOUS.  
THIS EVERYDAY AWARENESS, HAS DRIVEN ELICA'S DESIGN  
SENSE, SUPPORTED BY THE MOST ADVANCED TECHNOLOGY IN  
THE FIELD. ALL ELICA SERIES ARE ABLE TO MEET THE NEEDS  
RELATED TO THE DIFFERENT WAYS OF LIVING AND COOKING  
ALL AROUND THE WORLD.

# WHY ELICA?

The history of our brand began back in 1970 in Fabriano, Italy, where **our passion for design and quality** was born. An unmistakable style along with the meticulous studies of the air and its qualities, are our distinctive traits.

From the very beginning, we have been inspired by the principles of Italian Design, combining the most innovative technologies in the creation of our range hoods.

Over the years we have revolutionized the image of the hoods and the Elica brand can be found in homes all over the world. Our evolution has taken us into the world of cooking, providing unprecedented industry first solutions before anyone else that **never cease to amaze**. Our long history of cutting-edge design and technology has led to numerous patents, which have helped drive the future of appliances. At our global design center and the Elica Propulsion Laboratory, experts study air, moisture and heat, where they are researching and developing the products of tomorrow.

We are the market leader, producing 20.7 million pieces ranging from hoods to motors every year. Elica is represented world wide on five continents with manufacturing plants and commercial offices in Italy, Poland, Mexico, India, China and Russia.

**These are some of the Awards where our products have been recognized:**

# COOKING

No other cooking technology is faster and precise as the induction cooktops, this Series makes a reality to boil 1L of water in less than 60 seconds, offering all the benefits of the induction wonders: Safety, cleanliness, energy saving. In addition **NIKOLATESLA series** is the first Elica exclusive Aspiration Cooktop, which combines functionality of two technologies: Induction + Ventilation System into one single appliance. Save time and space, uncover this elegant hi-tech design.

# NIKOLATESLA SWITCH

## INDUCTION COOKTOP

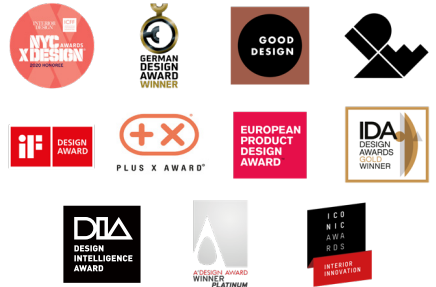

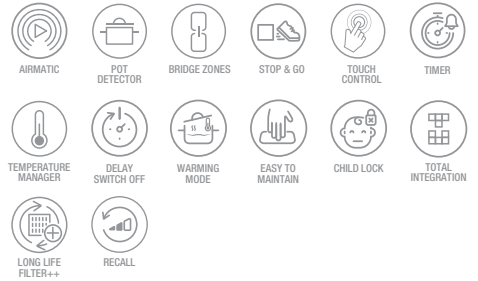

<b>Model Numbers</b>	ENS436BL
<b>Amperage</b>	33.3 A
<b>Frequency</b>	60 Hz
<b>Voltage</b>	208-240 V
<b>Cooking Zones</b>	4 zones of 7.1" x 7.9"
<b>Bridge Zones</b>	2
<b>Heating Level</b>	9 levels + booster

## ASPIRATION SYSTEM

<b>Aspiration levels</b>	3 speed + boost
<b>Blower performance</b>	400 CFM (4 speed + boost)
<b>Noise (sones)</b>	5.9 sones
<b>Duct transition</b>	3 1/4" x 10" Rectangular
<b>Filters</b>	6 layer dishwasher-safe anodized aluminum mesh
<b>Recirculating Kit</b>	3 - Ceramic Carbon Filters

# AIR COOKING

<b>Size</b>	36 1/2" W x 20 1/4" D x 8 1/4" H
<b>Type Finish</b>	Black glass
<b>Installation Type</b>	Ducted or recirculating Self rimming or flush mounted
<b>Controls</b>	Slider touch control

# NIKOLATESLA FLUX

## INDUCTION COOKTOP

<b>Model Numbers</b>	ENF430BL, ENF436BL
<b>Amperage</b>	32 A
<b>Frequency</b>	60 Hz
<b>Voltage</b>	220 V
<b>Cooking Zones</b>	4 zones of 7 1/2" x 8 1/4"
<b>Bridge Zones</b>	2
<b>Heating Level</b>	9 levels + boost

## VENTILATION SYSTEM

<b>Aspiration levels</b>	3 speed + boost
<b>Blower performance</b>	400 CFM (4 speed + boost)
<b>Noise (sones)</b>	5.9 sones
<b>Duct transition</b>	3 1/4" x 10" Rectangular or 6" round
<b>Filters</b>	4 layer dishwasher-safe anodized aluminum mesh
<b>Recirculating Kit</b>	KIT0192765 (2 ceramic filters)

# AIR COOKING

<b>Size</b>	30 5/16" W x 22 9/16" D x 10 3/16" H 36 1/16" W x 22 9/16" D x 10 3/16" H

# ELICA'S EXCLUSIVE FEATURES

## COOKTOP

Pause all the features in use on the hob, to later restore them back to what was previously set.

## COOKTOP

If the hob is accidentally switched off, the Recall feature is activated within 6 seconds: just one touch is all it takes to reset all of the previously set features, on all cooking zones and the extraction system.

BRIDGE ZONES

## COOKTOP

Homogeneous cooking: cooktop surface adapts to the type of pot being used.

TEMPERATURE MANAGER

## COOKTOP

The cooktop can be used with three programs (42, 72 or 92 degrees) to always ensure a perfect cooking.

POT DETECTOR

## COOKTOP

Turns off cooktop when zone is not being used and turns on when pot is placed.

CHILD LOCK

## COOKTOP

This avoids that the cooking or extraction areas are not accidentally switched on. The function can be enabled when the product is switched on but the cooking areas and extraction are switched off.

WARMING MODE

## COOKTOP

Designed for a low temperature cooking, ideal for heating liquids without worrying about the over-heating. Keeps prepared food warm, while other foods are still cooking.

DEEP SILENCE

An exclusive sound deadening technology that utilizes a patented filter design, which substantially eliminates air turbulence and ultimately reduce sound levels.

AIRMATIC

## COOKTOP

Once the Airmatic function is activated, the product's intelligent sensor system detects the quantity - but above all the quality - of the fumes produced by the type of cooking and sets the most suitable aspiration power.

REMOTE CONTROL

ADA compliant Remote Control provides added convenience to the user, as well as full function access for those with limited mobility.

EASY TO MAINTAIN

## COOKTOP

All the components, such as the grease and odour filters, can be easily accessed and removed so they can be washed or rapidly replaced. Making it a low-maintenance product.

TOUCH CONTROL

Multifunction electronic touch control behind sleek black glass and illuminate soft blue when activated.

TIMER

## COOKTOP

Set the cooking time and start the countdown. At the end the cooking area will be automatically switched off and a beep will sound. You can set independent timers on more than one area at the same time.

LED LIGHT

Expected lifetime of over 20,000 hours, represents the most remarkable advantage of LED light bulbs.

TUNE WHITE

Choose preferred shade of white to create the right atmosphere. The Kelvin degrees regulation starts from a very warm tone up to a cold color.

DELAY SWITCH OFF

## COOKTOP

A smart timer feature allows you to set the automatic switch-off of the product after a predetermined time. Delayed shutdown may be used in order to leave the hood on even after cooking, so to fully remove stubborn odors and residual humidity.

HEAT GUARD

Senses extreme temperatures (>158 °F) and automatically adjusts the blower speed to HIGH.

# ELICA'S EXCLUSIVE FEATURES

Air filter that can be regenerated and keeps characteristics for up to 3 years, avoiding unnecessary replacements and waste. It has level of efficiency of around 60%.

When activated, your hood will emit a *beep* signal to let you know when is time to clean your filters. For some models, an intermittent light will remain active until cleaning filter action is completed. See instructions manual to activate feature.

When activated, your hood will emit a *beep* signal let you know when is time to replace the carbon filters. See instructions manual to activate feature.

A baffle shapes stainless steel filter with mesh backing allows air to pass but blocks grease, which drops into the high capacity baffle cavities.

Aluminum mesh filters are step above competition, featuring triple layered, anodized aluminum that is woven into a highly dense mesh.

The technology draws air through narrowed channel around a face plate, which increases suction, without increasing blower speed or energy consumption.

Professional grade Stainless Steel Baffle Filters designed for high airflow cooking, trap volumes of grease which is collected in trays for easy removal and cleaning.

CFM Reduction System: enables user to reduce directly the maximum blower CFM, to meet local code requirements.

The Elica Easy Mounting System makes ducting out through the rear wall behind the hood canopy possible for this style hood.

Elica's patented Easy Mounting System enables hood installation to be done in 6 easy steps, without ladders, without the added cost of purchasing a specialized duct transition, and without the added cost of purchasing a duct cover to hide ducting connection points.

Products designed with special materials and finishes with great aesthetic impact but also with practical and durable characteristics, perfect for the kitchen.

Very high performances for models with aspiration capacity between 600 and 1200 CFM's. The ideal complement of PRO ranges.

High fume capturing capacity with an average aspiration range of 600 CFM's with low noise levels (1.2-1.7 sones at working speed).

Heavy gauge stainless steel seamless construction that delivers superior quality and Italian craftsmanship.

Exclusive sound deadening technology that effectively reduces sound levels.

Always more popular in today's modern kitchen.

# ELICA 'S EXCLUSIVE FEATURES

OPEN  
DOOR ALARM

## REFRIGERATION

To save energy and ensure proper preservation of your beverages, all Elica Undercabinet Refrigeration products come with a Door-Open Alarm, that will repeatedly beep when the door has been left ajar for longer than 5 minutes.

CONCEALED  
HINGE

## REFRIGERATION

Door hinges are hidden within the door and do not extend above the top of the door, allowing for a cleaner, more refined appearance, plus enabling the refrigerator to fit tighter within cabinetry.

ECO-MODE

## REFRIGERATION

Sustainable and environmentally friendly: Eco-Mode will maintain optimum interior temperature, while saving energy consumption turning the lights OFF.

HIGH EFFICIENCY  
CARBON FILTERS

## REFRIGERATION

Elica's advanced Carbon Filters remove odors and other gaseous pollutants from the air, ensuring fresh and pure environment.

EPC  
TECHNOLOGY

## REFRIGERATION

Elica Perfect Climate with double air duct cooling system. Meet Elica's Intelligent System with sensors that deliver precise and consistent temperature & humidity evenly throughout the entire compartment, so that all stored bottles are preserved under the same conditions.

QUIET  
OPERATION

## REFRIGERATION

Elica offers a speed-controlled motor, reducing exterior sound levels, while offering high ventilation performance to keep constant interior temperature and dampening any possible vibration that could disturb the preservation of wine and beverages.
