NIKOLATESLA ALPHA, FIT, FIT XL, FIT 3Z

### Filtering version piping

These kits provide easy installation and reliable results, while improving air quality and comfort in your kitchen. For more details or to purchase components, visit our shop or contact our [customer service](#). We are here to help you find the perfect solution for your kitchen!

Code: KIT0176757

#### **Plinth Out' filtering installation KIT**

For those looking for an efficient and discreet filtering solution. It is installed under the kitchen plinth, transforming the hob into a system able to ensure fresh and clean air.

***The kit includes:***

- Ceramic filters (2 pieces) for long-lasting air filtration.
- Our active ceramic filters offer high filtration efficiency, far above market average. They can remove up to 80 % of cooking odours, providing cleaner air.
- Rectangular 90° elbow to facilitate installation and airflow.
- Rectangular piping measuring 500 × 94 × 227 mm and 218 × 55 × 300 mm.
- Supports and adhesive tape for safe installation and perfect seal.
- 'Plinth-out' air outlet fitting with chrome-plated profile for an elegant look.

Code: KIT0167756

#### **Plinth In' filtering installation KIT**

The ideal solution for those looking for perfect integration inside the cabinet base. Enhance your kitchen style without compromising on performance and design.

***The kit includes:***

- Ceramic filters for effective air purification.
- Flexible piping easily adapting to different layouts.
- Smart deflector to optimize filtered air flow
- Chrome-plated profile to conceal any openings in style.

Code: KIT0180522

#### **“Back Outlet” filtering installation KIT**

This kit is the ideal solution for those who want to optimise space avoiding visible piping, by conveying filtered air in a discreet and practical manner. Holes need to be drilled on the cabinet to allow air to be discharged to the outside. In this way effective ventilation and an odour-free kitchen environment are guaranteed.

***The kit includes:***

- Ceramic filters (2 pieces) to ensure a fresh and clean environment.
- Ceramic filter frame for stable filter installation
- Rectangular 90° elbow for unobstructed air flow.
- Rectangular piping to convey air into the interspace.
- 'Plinth -out' outlet fitting with chrome-plated profile for a refined finish.

**Thank you for consulting our piping guide for NikolaTesla ALPHA, FIT, FIT XL and FIT 3Z models.**

Now you have all the necessary information on available parts and their codes to choose the proper piping for your system. You can find the component that best meets your needs in our eShop, according to your hob version:

**NIKOLATESLA DUCT-OUT HOB**

**NIKOLATESLA FILTERING HOB**

**Make sure to choose the right components to optimise your NikolaTesla hob efficiency and lifespan.**
