increased, further strengthening its global leadership. **Own brand product sales improved 4.7%, with third party brands growing 2.5%.** The **Motor Segment** in 2012 reports a **contraction in revenues (-7.2%)**, principally due to decreased white goods sector sales.

Analysing revenues from sales in the principal markets², the **Americas and Asia** contributed significantly to revenue growth (**+26.9% and +11.7%** respectively on 2011), while **European sales report a contained reduction (-3.4%)**, impacted by the Motor segment performance.

For completeness, the breakdown of consolidated revenues by geographic location of the Group companies is reported below.

Earnings for the full year 2012

EBITDA amounted to Euro 27.0 million compared to Euro 26.5 million in 2011, a **7.0% revenue margin**. The **1.6% increase in the margin** is due to the continued implementation of **industrial and overhead costs streamlining programmes** from the beginning of the year and the **reduction in the principal raw material costs**, which offset a **negative price/mix performance** due to heightened competition, in particular in the third party product segment.

EBIT of Euro 12.1 million is in line with the previous year (Euro 12.0 million).

The **Group Net Profit of Euro 5.0 million (1.3% revenue margin)** improved **20.3%** compared to Euro 4.2 million in the previous year, also owing to the reduced impact of financial charges.
