

PRESS RELEASE

**COMMUNICATION OF MANAGEMENT RESULTS FOR THE SECOND
QUARTER OF 2008**

Fabriano, 29 June 2008 – **Elica S.p.A.**, the parent company of a Group that is the leading manufacturer of kitchen range hoods, communicates that on **Friday 8 August 2008** the management results for the second quarter 2008 of the Elica Group will be published voluntarily, providing timely communication, which is particularly necessary in this period of economic-financial uncertainty.

This data will also be included in the half-year report for 2008, which will be reviewed by the Board of Directors of Elica S.p.A. on 25 August 2008.

The **Elica Group** has been present in the cooker hood market since the 1970s and is today world leader in terms of units sold. It is also a European leader in the design, manufacture and sale of motors for central heating boilers for domestic use. With over 2,300 employees and an annual output of over 5 million units, the Elica Group has nine plants specialising by type of process and product; of these, seven are in Italy, one is in Poland and one in Mexico.

With over thirty years' experience in the sector, Elica has combined meticulous care in design, judicious choice of material and cutting edge technology to become the prominent market figure it is today. The company has revolutionized the traditional image of the kitchen cooker hood: no longer seen as a mere domestic accessory, it has been transformed into a fascinating and sophisticated design object. It is no longer seen as simple accessory but as a design object.
