

When the view out of your kitchen window is too spectacular to disrupt it with a large range hood, Elica's SIENA is the perfect solution. Siena literally installs into the ceiling and is discreetly flush mounted, which allows the cabinetry and outdoors to take center stage. However, when it's time to cook, Siena will easily do the job.

SIENA has a powerful 600 CFM and in-line blower, (sold separately) which is mounted in the attic for added silence and peacefulness. The 43" x 27" size provides excellent capture area, and in addition Perimeter Aspiration Technology has been included increasing suction by 35%, making SIENA a highly effective hood despite its out-of-sight location.

SIENA's bright LED lighting and 4 speed blower are conveniently operated by an ergonomic remote control.

SPECIFICATIONS

	43" UNIT
Model:	ESNX43S2 (requires in line blower ESNBLK26 sold separately)
Dimensions:	43"W x 27"D x 7 23/32"H
Blower Type(internal):	600 CFM, 4 speed in-line blower (Sold Separately)
Blower Performance:	
Speed 1	160 CFM
Speed 2	280 CFM
Speed 3	470 CFM
Speed 4	600 CFM
Noise (sones): Working Speed	-
Finish:	Stainless Steel
Controls:	Remote Control
Illumination:	4 LED 2.5 W
Filter Type:	Dishwasher-safe aluminum mesh grease filters + stainless steel perimeter aspiration plate
Number of filters:	1
Installation Type:	Ducted out
Electrical:	120V - 60Hz, 445 Watts at 3,7 Amps
KITS:	ESNBLK26
In line blower SEM1 US 120V	
CONSUMABLE PARTS:	
Replacement Light Bulb (1)	2006BH GRI0116546
Max Ceiling Height	10 ft
WARRANTY:	2 YEARS PARTS AND LABOR, EARN A 3RD YEAR OF FULL FACTORY WARRANTY REGISTERING YOUR PRODUCT ON ELICA.COM

** For valid warranty extension, register within 3 months from purchase. For USA & Canada Users only

PLUS FEATURES

BLOWER KIT - Elica Blower KITS offers installation flexibility that will accommodate most construction requirements, plus provides options related to ventilation power and sound generation.

REMOTE CONTROL - Elica's ADA compliant Remote Control, provides added convenience to the typical user, as well as, full function access for those with limited mobility.

AMBIENT LIGHT - Elica studies on hood lighting leaves no stone unturned. Here we have thought about products not only able to light the cooktop, but the entire kitchen space. And so the hood is transformed: from a kitchen appliance to a true lighting element. Considering the design of Elica hoods, it is not hard to imagine how this option is quite unique, and represents one extraordinary point of strength for us.

TOP PERFORMANCE - Excellent performance for models equipped with this plus. High fume capturing capacity with an average aspiration range of 600 CFM's. with low noise levels, 1.2 - 1.7 sones at working speed.

LED LIGHT - LED lighting is undoubtedly the smartest solution in terms of energy saving. Expected life time of over 20,000 hours, represents the most remarkable advantage of LED light bulbs.

PERIMETER ASPIRATION - First developed by Elica, this technology literally turned the market 180 degrees and opened the door to hoods that could be mounted on the wall like picture frames. The technology draws air through a narrowed channel around a face plate, which increases suction, without increasing blower speed or energy consumption.

CLEAN FILTER ALARM - When activated, your hood will emit a "beep" signal to let you know when is time to clean your filters. For some models, an intermittent light will remain active until cleaning filter action is completed. See instructions manual to activate feature.
